On August 5, 2021, MaryKate Sullivan passed away from complications of T1Diabetes. She was 35 years old. Honor MaryKate and support Breakthrough T1D, formerly Juvenile Diabetes Research Foundation. Join us for a day of fun, fellowship and golf. **The Stirling Latelys**, a Celtic band will play before dinner and after dinner.

To date we have raised over \$100,000. The money raised goes to fund research that will find a cure! Golfing for a cure!

This will be our final event. We want to make it a tribute to remember! Join us to golf or come just for dinner and music.
